## Hurricane Evacuation Policy and Contract for the 2009 Hurricane Season

A law passed by the Louisiana State Legislation (ACT 615) now requires ALL shelters, veterinary clinics and boarding facilities to have an evacuation plan on file with them on a yearly basis. That means that all animals MUST be evacuated from the area when a Hurricane (Class 3 or above) is imminent. The Owner will be given advanced notice in the event of an evacuation. Please read the following statements carefully.

- Owners MUST fill out information sheets with current contact number(s) and local emergency contact number(s). The emergency contact given MUST be someone who will be willing to pick your animal(s) up. Please make sure that you verify with your emergency contact that they are willing to be held responsible. If needed, please call us with another emergency contact.
- ANY animal that is not picked up with a major Hurricane evident will be evacuated by the staff at Dog Day Afternoon, LLC. The owner will be charged an evacuation fee of \$500 on top of boarding charges incurred while staying at Dog Day Afternoon. This fee covers the cost of safe transport for their pets, as well as care and feeding of their pet during the evacuation.
- Please note that there may be additional boarding charges incurred by Dog Day Afternoon, LLC by an out of state veterinary hospital, kennel, hotel, etc. that cannot be predicted.
- Any animal NOT picked up at the evacuation site will be brought back to Dog Day Afternoon, LLC as soon as the facility is deemed safe to handle the needs of your animal for an additional \$100.00 transportation fee.
- Dog Day Afternoon, LLC and/or any of the employees will not be held responsible for any deaths or injuries to the animals at the kennel, during transport, or at the evacuation site.

I, \_\_\_\_\_, understand the hurricane policy and the fees that are associated with possible evacuation. I understand the risks of evacuation and do not hold Dog Day Afternoon, LLC or staff responsible for any misfortunes that may occur.
